

LESSON 9

Creating a Prosperous YOU with a Prosperous Life

1. If money was infinitely flowing into your life just as abundantly as the air that you breathe, what would life be like for you?

2. How would you feel knowing money is limitless, endless & overflowing? From a place of pure prosperity what would you feel?

3.

What would you no longer feel?

4.

Take each feeling you wrote in Question 2 and write them on a sticky note. Place this sticky note somewhere you can see often.

5.

Spend 30 seconds feeling each "feeling" right now. The more these feeling become a habitual feeling for you, the more you magnetise prosperity to you.

6.

What decisions would you make differently?

7.

What would you do today if you believed money always came to you? Imagine doing it.

8.

Create a Vision board of the prosperous life and person you are creating. You can use paper and stick things on, create a background on your computer etc. Put it up somewhere you can see.. feeling that it's coming to you and then feeling like it's already yours. (This can be something you work towards during this lesson.)
